Event Description

Description

Empower Hacks is a week long hackathon that aims to rapidly prototype solutions to multiple issues. Empower Hacks provides tools from guest speakers, live tutorials, and code resources to helps students create the best projects possible.

Benefits to Society

Empower Hacks not only gives students the opportunity to solve problems in underprivileged communities, but also strives to educate hackers on their impact in the world

Benefits to You

Project Empower offers sponsors visibility to over 3200 members in our online community, an estimated 1250 hackers who participate, and over 37 thousand followers on social media platforms with millions of views
